DETAILED ACTION

1. Claims 1-8 are currently pending. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.
2. In the reply filed on May 24, 2004 applicant elected without traverse Group III, claims 5-8.
3. Claims 1-4 are withdrawn from further consideration pursuant to 37 CFR 1.142(b) as being drawn to a nonelected invention, there being no allowable generic or linking claim. Election was made **without** traverse in the reply filed on May 24, 2004.
4. Claims 5-8 are examined on the merits.

Claim Rejections - 35 USC § 112

5. Claims 5-8 are rejected under 35 U.S.C. 112, first paragraph, for the reasons set forth in the previous Office action.

All of applicant's arguments regarding this ground of rejection have been fully considered but are not persuasive. Applicant argues that the specification presents three examples that enable the use of smilagenin for treatment of Parkinson's disease. However, the specification only shows that smilagenin can improve cognitive function and increase muscarinic receptor density. These experiments are either in vitro or in rat models. These uses of smilagenin are not considered to provide enough information that a person of ordinary skill in the art would be able to determine the effectiveness of smilagenin in treating Parkinson's disease. Parkinson's disease is known in the art to be a disease that is difficult to effectively treat

with any degree of predictability. Therefore, it would require undue experimentation on the part of a person of ordinary skill in the art to be able to practice as the invention as claimed.

Double Patenting

6. Claims 5-8 are provisionally rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over the claims of copending Application No. 10/077,493 **now US Pat. No. 6,812,213** for the reasons set forth in the previous Office action.

Applicant's response states that this rejection shall be addressed when subject matter is indicated as allowable. Thus, at this point, the rejection is still considered valid for the reasons of record. Please note that since the application has been patented, this is no longer a provisional rejection.

Applicant's response states that this rejection shall be addressed when subject matter is indicated as allowable. Thus, at this point, the rejection is still considered valid for the reasons of record.

8. Claims 5-8 are provisionally rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over the claims of copending Application No. 10/109,204 for the reasons set forth in the previous Office action.
